

# SEBERT

## SERVICE UPDATE

We have seen some challenges with the weather this spring between the windy conditions and low nighttime temperatures, and frequent rainfall.

This week has been no exception.

We are handling these challenges as best we can with consideration of site conditions and the needs of your property, while keeping in mind safe work practices.

Service schedules will be altered this week as we navigate saturated site conditions and work around the rainfall.

All of us at Sebert value your trust and loyalty in us to be your service provider and we ask for your patience and understanding as we work through the weather challenges.

We may leave some areas not mowed this week due to site conditions. While we understand this may be an inconvenience for your site, we have to consider safety and how to mitigate damage (tire ruts, etc.) on the property.
